Over 30 years experience & achievement in Real Estate Sales and Management

A Brief History Of Our Company: I founded Robinson Realtors in 1986 to be a purposely small, full-service real estate organization. Our company has helped over 2,000 families with successful real estate transactions. However, my roots in real estate go back several generations. In fact, my grandmother, Marguerite Rule, was the first woman Realtor in Cincinnati. In 2010, our organization attracted the attention of Sotheby's International Realty. They so admired our commitment to quality service and selected us to represent them in this region. Realizing this partnership would bring tremendous advantages to our clients, we agreed. On October 7, 2010, we began doing business as Robinson Sotheby's International Realty.

We remain a 100% independently owned and operated company - and we remain totally committed to the satisfaction of our clients.
